

THE FRIBBIT MASK

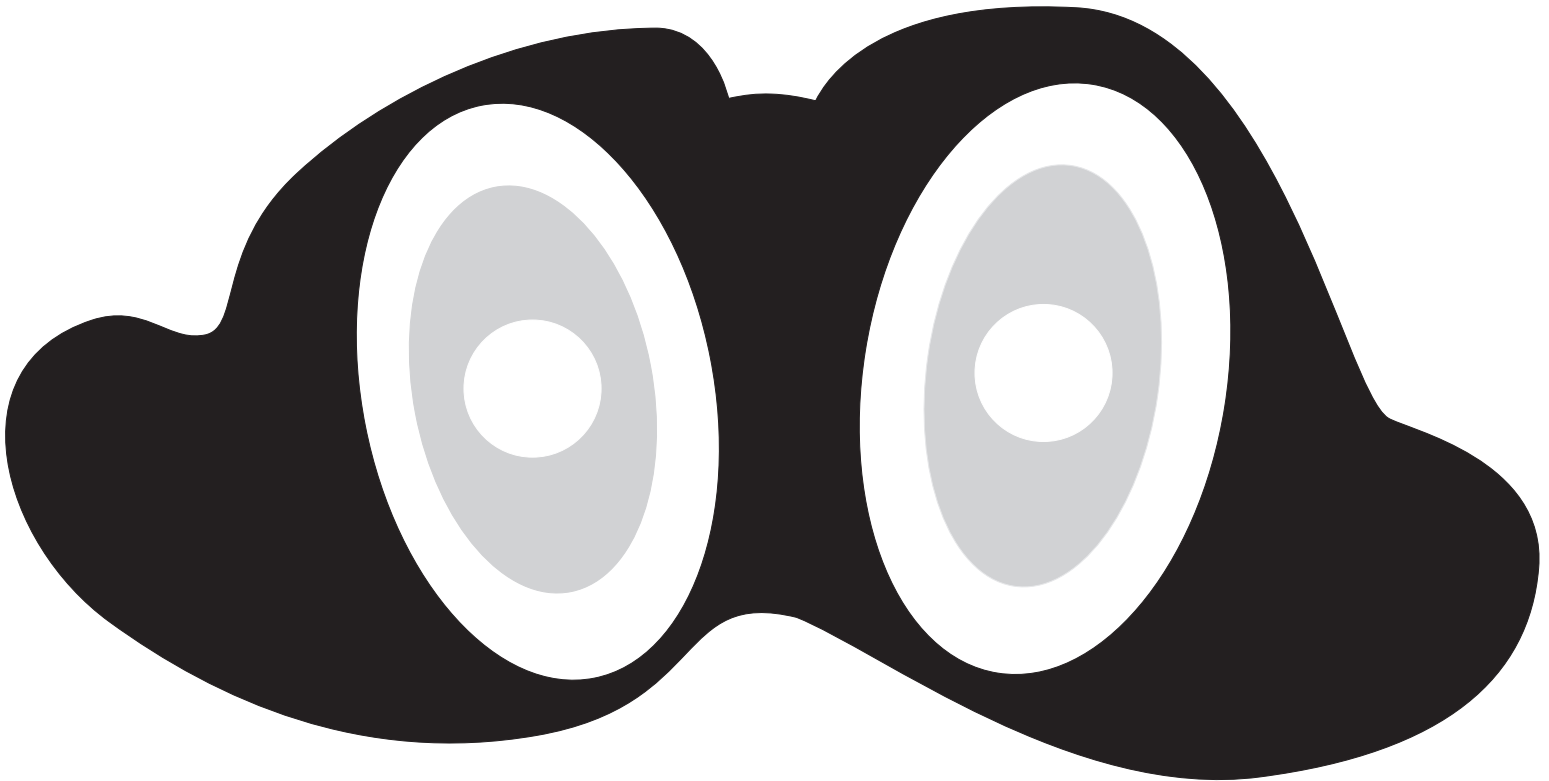

Suggested instructions for creating the “Fribbit Mask”.

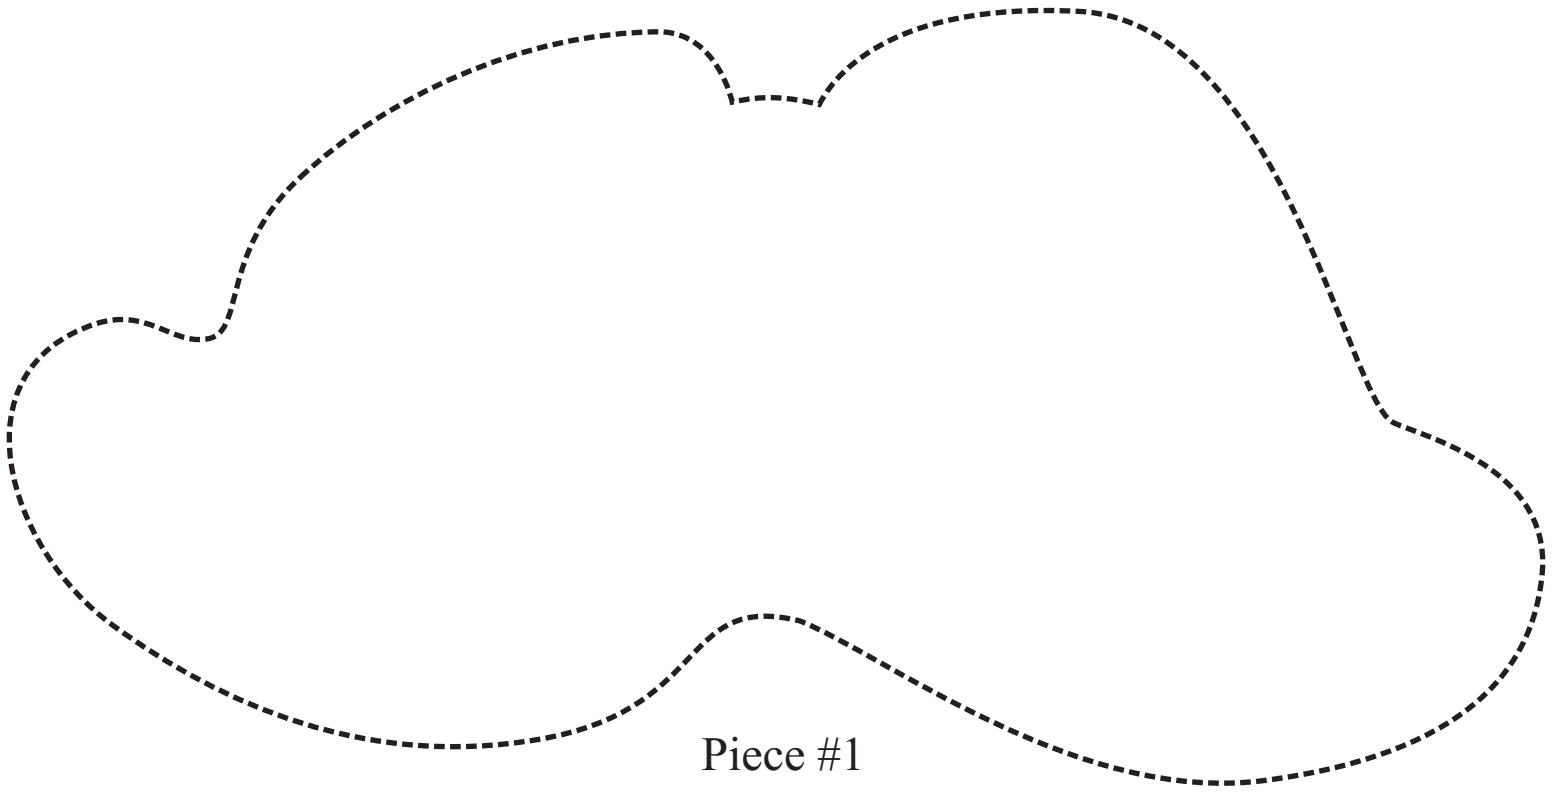

1. Cut Piece #1 out of a Green material.
2. Cut Piece #2 out of a White material and glue to Piece #1.
3. Cut Piece #3 out of a Blue material and then glue to Piece #1 & #2.
4. Once all pieces glued together, cut an eye hole for the children to see out of.
5. Once the eye hole is cut, you can attach a string or elastic to the cheeks of the mask to hold it on the child’s face. Or you could attach a stick to one side of the mask so they can easily hold it to their face.

Happy Creating!!!!

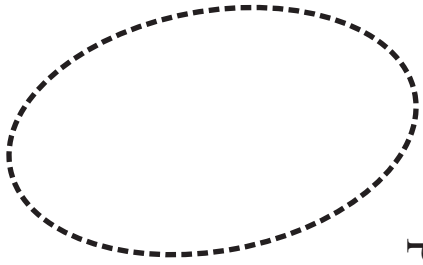

Here is a “Fribbit Mask” for you to follow.

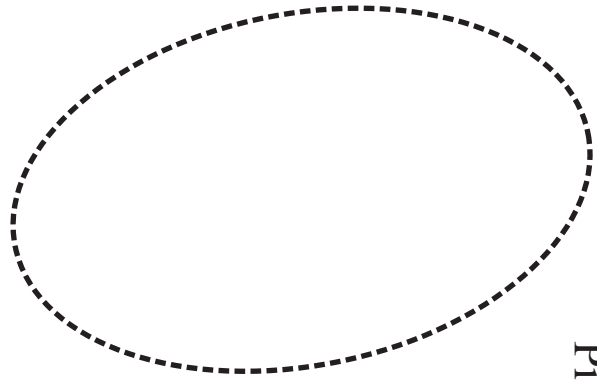

Piece #1

Piece #3

Piece #2
